

EXPOSED SPARGE WALL HUNG URINAL

SDS wall hung urinals are manufactured as one piece units from 304 grade stainless steel 1.2mm thick, with a smooth satin polished non reflective surface.

The exposed horizontal flushing sparges on this model ensure an even, effective flush.

Wall hung urinals are supplied as standard with combination ends suitable for exposed or side wall applications, a plastic automatic flushing cistern, stainless steel 22mm downpipe, 38mm (1½" BSP) waste fitting, downpipe clip & stainless steel fixing screws

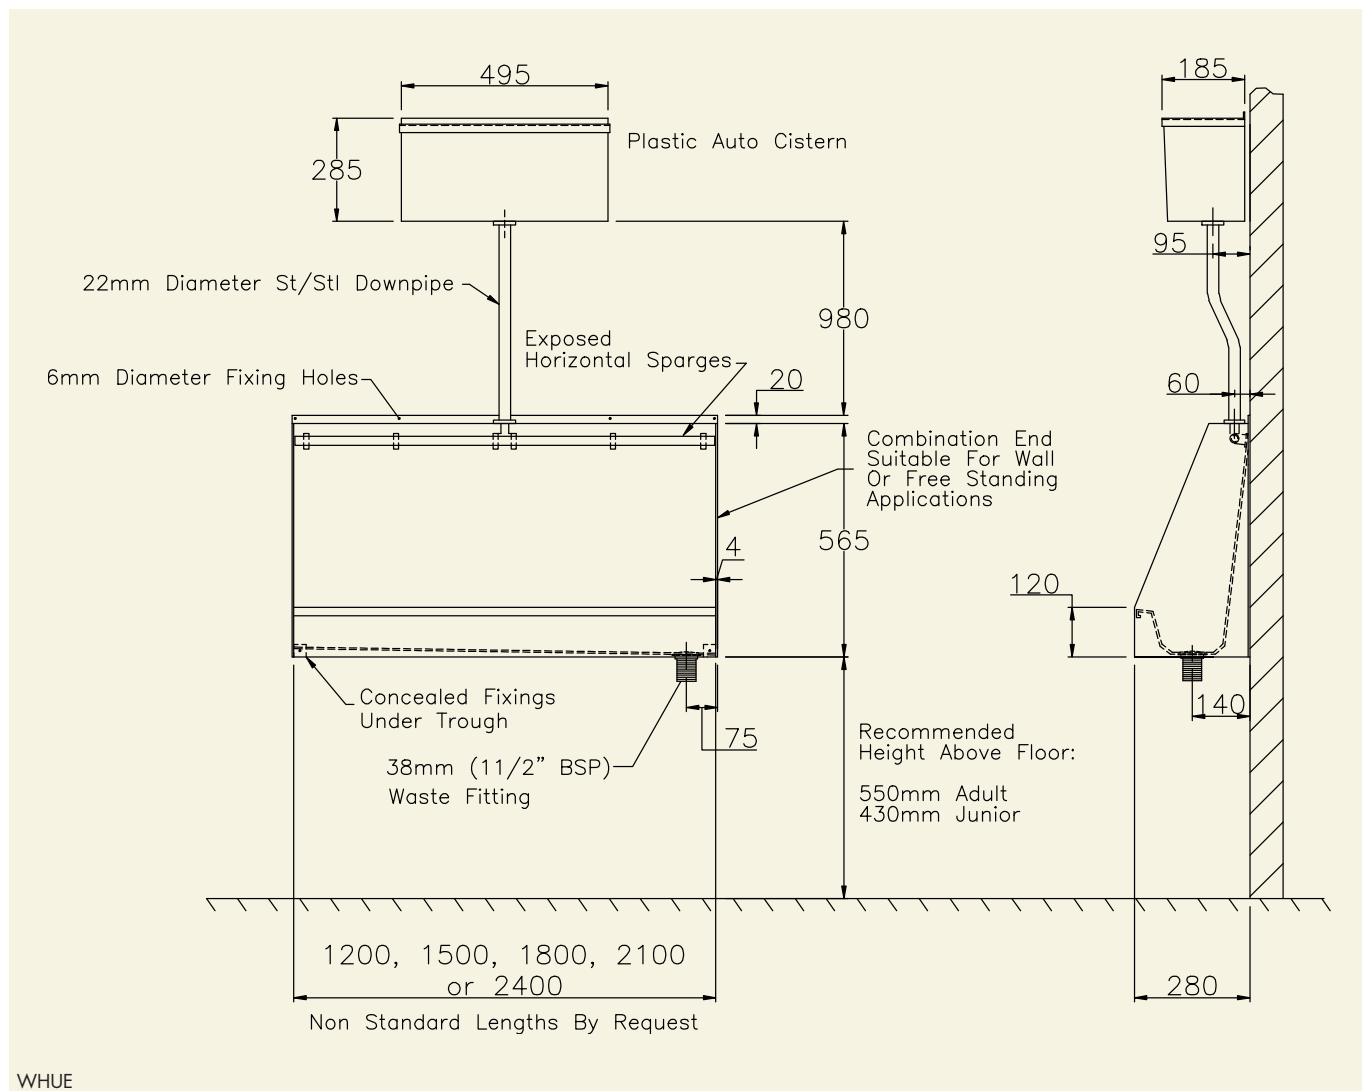

1 WHUE Exposed Sparge wall hung urinal

2 WHUE Plastic automatic flushing cistern

Options

- Non standard length
- Non standard waste position
- L or U shaped units
